ZÁKLADNÍ ŠKOLA

Montessori school - Tišnov, Czech Republic

We are looking for Erassmus+ parners!

Learning together

Growing beyond borders

Connecting with innovative schools across Europe through Erasmus+

Who we are?

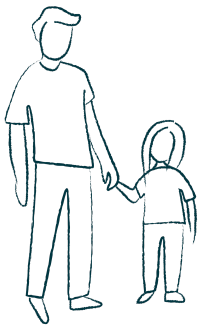
A school where children grow through learning

ZaHRAda is a Montessori primary school for children aged 6–15, located in Tišnov, near Brno in the Czech Republic.

We create a learning environment where children are active participants in their education. They learn to make choices, cooperate, take responsibility and use their knowledge and skills in real-life situations.

Our approach is based on:

- **Montessori education**
- **PBIS**
- **Individual learning paths**
- **Mixed-age learning**
- **Formative assessment**
- **Project-based learning**
- **Learning beyond the classroom**



We see education not only as gaining knowledge, but as a journey towards independence, responsibility and lifelong learning.

Could we learn from each other?

We are looking for school partners that share our values and are open to meaningful, long-term cooperation and mutual learning.

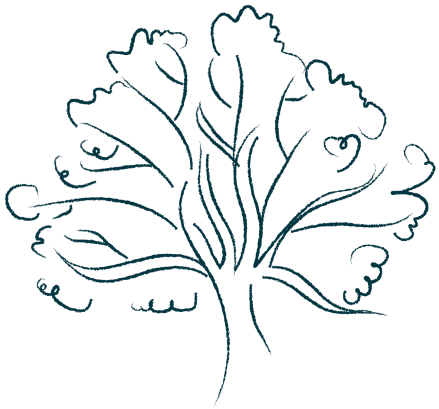
We are especially interested in connecting with schools with strong experience and good practice in:

- Montessori education – particularly the practical application of Montessori principles in education for children aged 11–15
- Positive Behaviour Interventions and Supports (PBIS)
- Nonviolent Communication
- Formative assessment & student self-reflection
- Inclusion & individual support
- Student independence & responsibility
- Outdoor & experiential learning
- Project-based learning

We want to learn from approaches that work – and share the experience and know-how we have developed in our own school.

We are interested in:

- Job shadowing
- Staff mobility
- Pupil mobility
- School exchanges
- Sharing good practice
- Long-term partnerships



Let's learn from each other.

Let's grow together.

What matters to us?

Education for life

Independence & responsibility — Children gradually learn to take responsibility for their learning, choices and role within the community.

Cooperation & relationships — We build our school on respectful relationships between children, teachers and families and on active participation in school life.

Reflection & feedback — Formative assessment, self-reflection and meaningful feedback help children understand their progress and identify their next steps.

Learning by experience — Projects and real-life situations allow children to connect knowledge across subjects and apply what they learn.

Learning beyond the classroom — Outdoor learning, community activities and experiences outside school are a natural part of education.

Openness to the world — International encounters, languages and different cultures broaden perspectives and bring new inspiration into everyday school life.

ZaHRAda has been welcoming
European Solidarity Corps volunteers
for more than five years

Financováno
Evropskou unií

Let´s connect!

We believe the best partnerships grow from shared values, openness and mutual inspiration.

We would love to connect with experienced and inspiring schools that are willing to open their doors, exchange good practice and explore what we can learn from each other.

We have experience to share. And much more we want to learn.
